

Notes:

Dick Diamond and The Dusters is a self-contained, 7-member band. The band uses their own X32 rack and split snake for their own in-ear monitor systems. Members bring their own mics, stands, cables, direct boxes, and will pin their own channels to their own floor box. FOH engineer will receive a 22-channel, easy-labeled fan/whip (2 channels are vacant and channels 12 & 13 are generally not used). There is 40' of fan cable from the X32, which must be run from stage right. A sub snake may be required for longer runs to FOH board. Power is required at the rear of stage left and stage right, and also at the front of stage right.

Dick Diamond & The Dusters Stage Plot
