

Notes:

Dick Diamond and The Dusters is a self-contained, band. The band uses their own X32 rack and split snake for their own in-ear monitor systems. Members bring their own mics, stands, cables, direct boxes, and will pin their own channels to their own floor box. FOH engineer will receive a 22-channel, labeled fan/ whip (only 16 channels are used by FOH). There is 25' of fan cable from the X32, which must be run from stage right. A sub snake may be required for longer runs to FOH board if on stage left. Power is required at the rear of stage left and stage right. **Note: Some band members may run their instruments via direct inject and without any stage amps.**

Dick Diamond & The Dusters Stage Plot

For more info, contact Phil Reiner at (219) 406-5667

If needed, mics and stands for overhead cymbals supplied by FOH
